

How to register in Moodle for the IAU Symposium 401

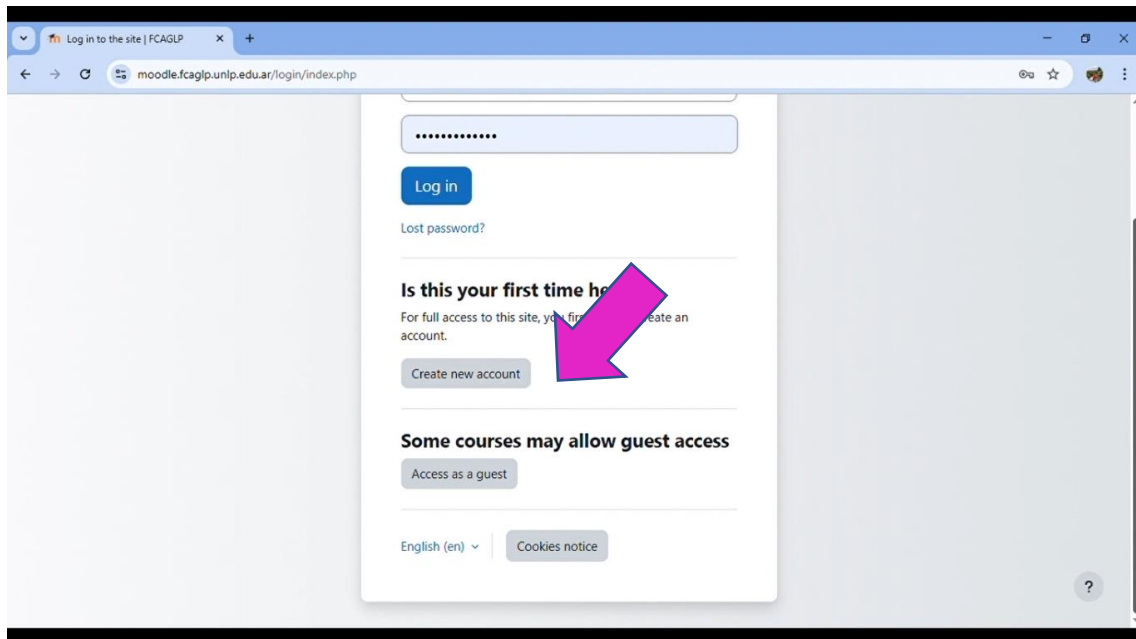

First, go to Moodle fcaglp in Google, or type <https://moodle.fcaglp.unlp.edu.ar/>

Then choose your preferred language on the upper-right corner (it can be Spanish or English), and then select the “IAU Symposium 401- Poster session” from the list of Available Courses.

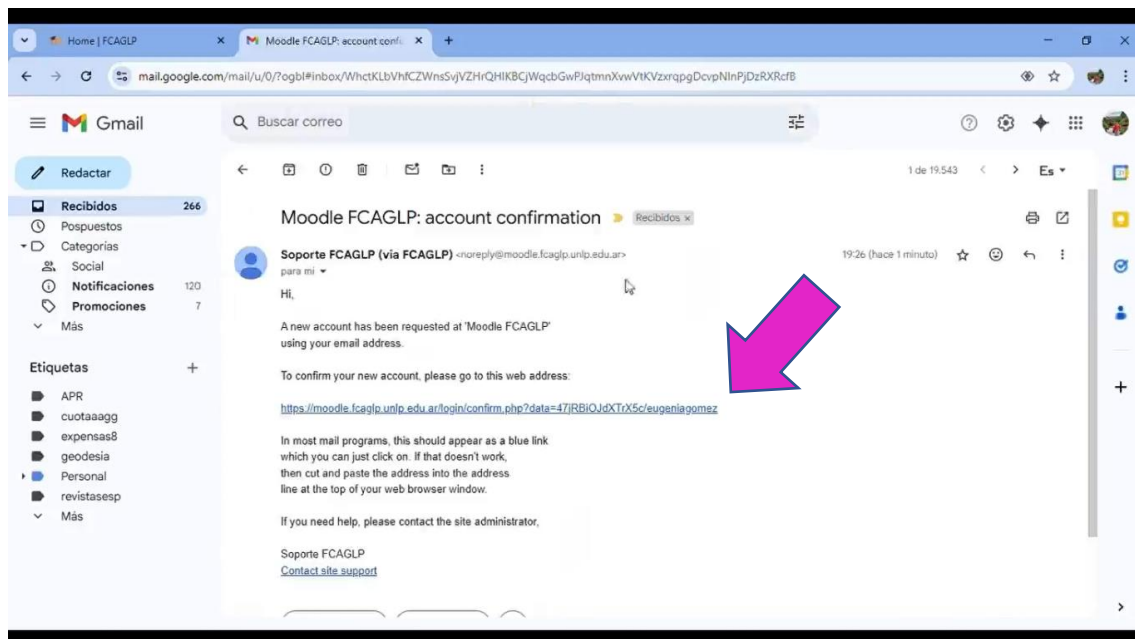

If this is your first time, you will need to create a new account.

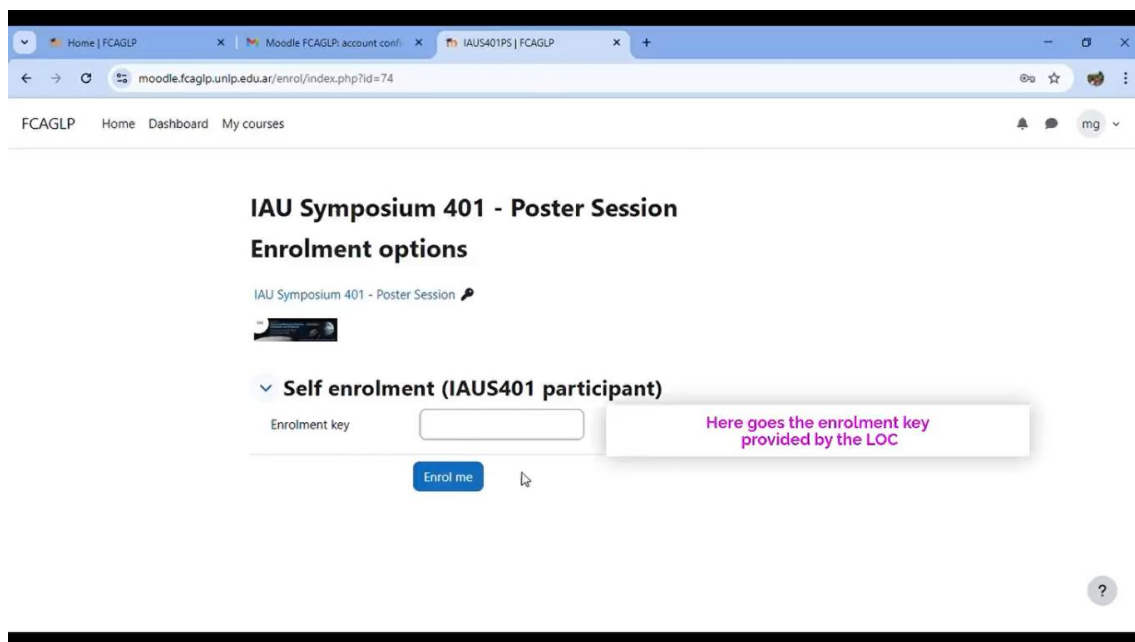

You will have to fill a standard form with a username, password and your email among other information.

After the CAPTCHA that will appear in the end, you will receive an email in the registered email account.

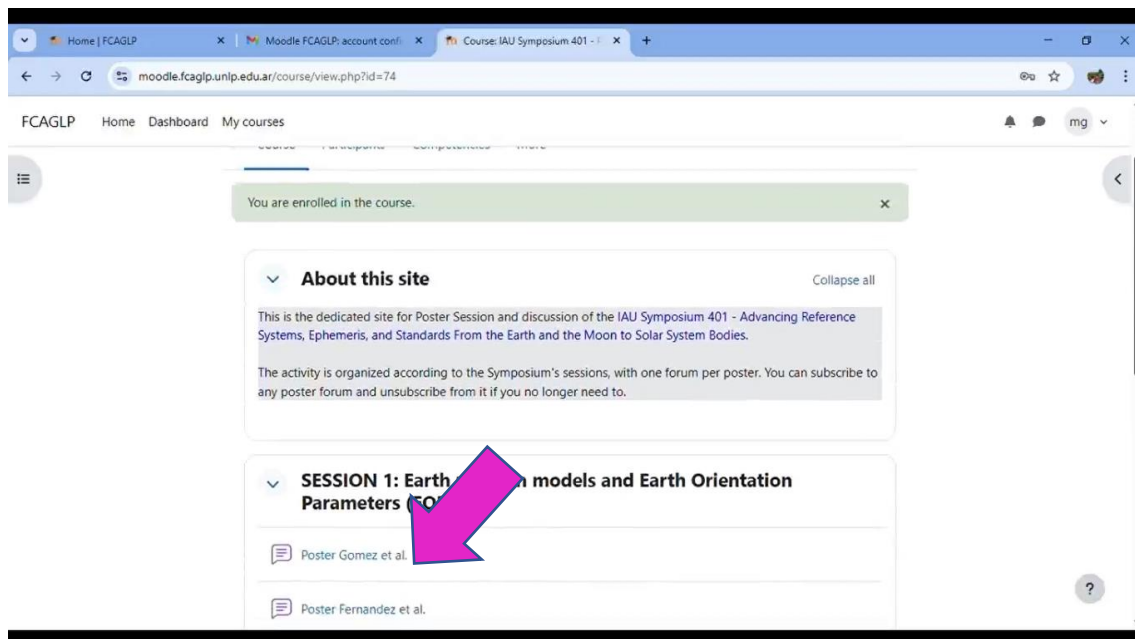

Click on the link to confirm the new Moodle account and click “continue”. You will then be redirected to the Moodle of the Symposium. For security reasons, you will also need to introduce the enrolment key that will be sent by the LOC.

Then it is done!

You are now able to see the posters organized by session and you will have the opportunity to interact with other people through each poster forum. You just need to select a session and a poster.

Once you have selected a poster, you will be redirected to a poster forum.
